

ARCHELONS

COMPANY

ARCHELONS founded in 2006, envisage innovation and forward-thinking in Recruitment industry. They cater to the needs of Software and technology centric companies, product start-ups, manufacturing and automobile companies, automotive dealers, engineering contractors and oil & gas operators. Headquartered in Gurgaon, Archelons has business offices across India, UAE and South Korea. Equipped with in-depth knowledge of Recruitment processes, they enable companies to deliver effective results and embrace long term client engagements. To simplify they SEARCH-STAFF-RECRUIT (Trilogy) for companies of all sizes.

Challenges

Now going by the above trilogy, it involves cumbersome task of managing resumes, storing them in databases, running searches on as-of-when required basis and finally selecting the right fit for organizations. Sounds dynamic, intuitive and challenging, isn't it? Also the pace at which they were crossing geographies required quick actions, deployment of tools and most importantly results that speaks for itself. What they wanted was a solution that is adaptable to all regions (with least technical alterations), easy-to-use and acquaint, agile and cost effective (\$\$). Most of the companies nowadays sweat in name of HR solutions, technological changes and huge money they spend to get it.

Rchilli Contribution

As known to all, for smooth flight, frequency should match at both the ends. Rchilli, a lone ranger amongst all big HR solution providers D-complex the HR environment with its human-friendly approach in managing resumes, brings solution to reach of customers of all economies without drenching them into technical integrations for which they end up paying. Rchilli gives forward-thinking approach, gamifies the
