

RAMCO Partnered With Rchilli For Its HCM Solution

Recruitment Management

Ramco HCM's end-to-end recruiting functions enable you to quickly find the right talent and build long-term relationships with current and potential employees at far lesser costs. The software allows users to capture staffing requirements, collaborate with recruitment agencies, enter and shortlist profiles of potential candidates, schedule interviews, rate and select applicants, offer jobs and bring them onboard.

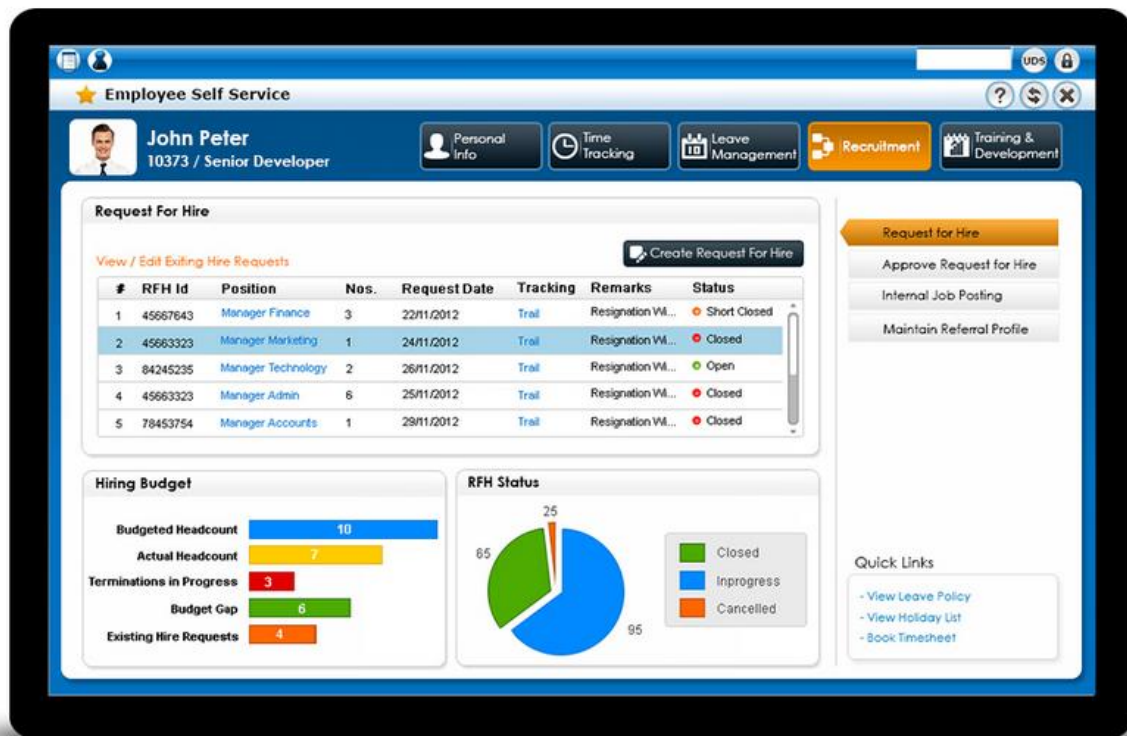

Rchilli specifically handles Candidate Management under Recruitment by managing all the incoming resumes. Rchilli's agile Resume Parser at the core of a solution serves a perfect host to Fetch, Parse, Connect & Update Resumes in just One Click. With CV Automation now coming in action, Candidate Management happens in quick go; Taking Recruitment to its next level.

Swift integration, overly dedicated Support, Multi-lingual parsing, Cloud/Self Hosted API, All-document handler, 74+ fields, HR-XML compliance, SaaS & CRM capabilities with Batch/Bulk parsing of files, Email Inbox integration, highly accurate & secure with Social Parsing were just another reasons of choosing Rchilli; A CV Automation solution.

Integrating Rchilli with Ramco HCM turned it to a complete Recruitment Management suite with key takeaways as follows:

- ❖ Accurate info from Resumes getting parsed straight into the database.
- ❖ Auto-fill forms for the candidate on submission page as parser extracts the exact info from resumes and populates the fields automatically.
- ❖ Faster and More resume submissions from Applicants giving them the ultimate Candidate Experience.
- ❖ Parser sources info from Social Media profiles and displays results along with parsed data. Adds social touch to the Solution.
- ❖ HR-XML compliance ensures data is consumed freely with other workforce solutions.
- ❖ Shortlist profiles of potential candidates and bring them onboard expeditiously.
- ❖ Finally helps organizations achieve true visibility across the entire talent acquisition process, making it easier to acquire the best talent.
